Line-up

Claus (guitar / vocals / theremine)

Martin (bass)

Pati (drums)

BIOGRAPHY

Claus Trophobia – Psychedelic Noise Rock since 2017

Claus Trophobia blends the escapist atmosphere of '60s psychedelia with the raw, untamed force of noise rock. Since his solo debut **No Love** (2018), he has been pushing the edges of the genre. With the follow-up **Space Rock Voodoo** (2021), he fully arrived at his signature sound – gritty, thunderous rock wrapped in layers of psychedelic haze: sharp, intense, and atmospheric. Despite the pandemic, the album made it to the stage and was performed live. On stage, **Claus Trophobia** appears either as a one-man band or with a full live lineup. A standout moment so far was his 2018 support show at Vienna's Viper Room for California space rock legends Farflung.

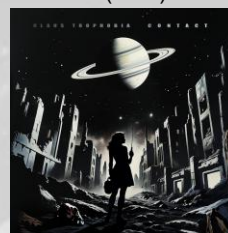

In 2025, **Claus Trophobia** opens the next chapter with **Contact** – an album as heavy as it is elegiac and relentless. A sonic journey through dystopian soundscapes, caught between hope and bitter disillusionment – raw, honest, and intense.

PROMO TEXT (please use for announcements)

Claus Trophobia delivers intense, darkly psychedelic noise rock – raw, atmospheric, and captivating. With his new album **Contact** in tow, he takes the audience on a sonic journey through heavy guitar riffs, spaced-out textures, and dystopian depth. A live experience charged with energy, edge, and emotion – uncompromising, unique, and out of this world.
